

Gardens and Landscapes in Historic Building Conservation: A Comprehensive Guide to Preservation and Restoration

Gardens and landscapes are an integral part of our built heritage. They provide beauty, recreation, and ecological benefits to our communities. However, historic gardens and landscapes are often threatened by neglect, development, and climate change.

Gardens and Landscapes in Historic Building Conservation is the most up-to-date and comprehensive guide to the preservation and restoration of historic gardens and landscapes. Written by a team of experts in the field, this book covers everything from the history of garden and landscape design to the latest techniques for preserving and restoring these important cultural resources.

Gardens and Landscapes in Historic Building Conservation is divided into three parts:
