The Proceedings Of The 35th Imac Conference And Exposition On Structural Society is a must-have for anyone involved in the field of structural engineering. This comprehensive book contains over 1,000 pages of cutting-edge research and insights from leading experts in the field.

Inside, you'll find the latest information on a wide range of topics, including:

- Structural dynamics
- Vibration control
- Structural health monitoring
- Earthquake engineering
- Wind engineering
- Bridge engineering
- Building engineering

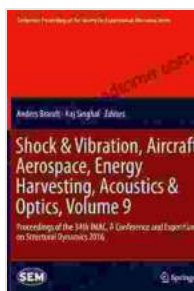

- Offshore engineering
- And much more!

Whether you're a practicing engineer, a student, or a researcher, the Proceedings Of The 35th Imac Conference And Exposition On Structural Society is an invaluable resource that you'll refer to again and again.
